WHERE IT GOES  
This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Cut a blank 100 wide x 170 long.  
Fold the bottom 23 mm back 90 degrees to make a foot.  
Upright face 100 wide x 150 tall.  
Drill two 5.5 mm holes in the foot, 14 mm behind the face, at 20 and 78 mm from the left edge, for 5 mm deck screws.  
Drill two 4 mm clip holes 115 mm above the deck, at 20 and 78 mm from the left edge (the separator and drier centres).  
Fit: stands 5 mm behind the separator; the foot points back.  
The separator clip (60 mm) and drier clip (40 mm) screw to it.  
Check: upright square to the deck; the clips line up with the column centres.
